BONALDO

Tonight

A soft and sinuous aesthetic, simplicity as a strong point. Available in the double or single bed version, Tonight is a bed that can characterise the space in which it is placed. Its proportions are carefully studied and the style is widely customisable in terms of details and finishes. There is also Tonight open version with the storage unit that provides valuable additional space. The fabric headboard can be decorated with a delicate quilting, Tonight ego. Light and dynamic in the version with metal feet, Tonight air represents a furnishing choice capable of combining practicality with the research of manufacturing details, a bed with a pleasant and welcoming image. Tonight fun, with side rail, is equipped with a base that can be opened with a piston to support the insertion of drawers or a second bed base. Tonight fun is an elegant and discreet invitation to rest, perfect for those in constant search of essentiality. The cover, available in fabric, leather or eco-leather, is completely removable. An ornamental border embellishes and emphasises the bed's perimeter and can be chosen in the same colour or in contrast with the cover.
