JELLY

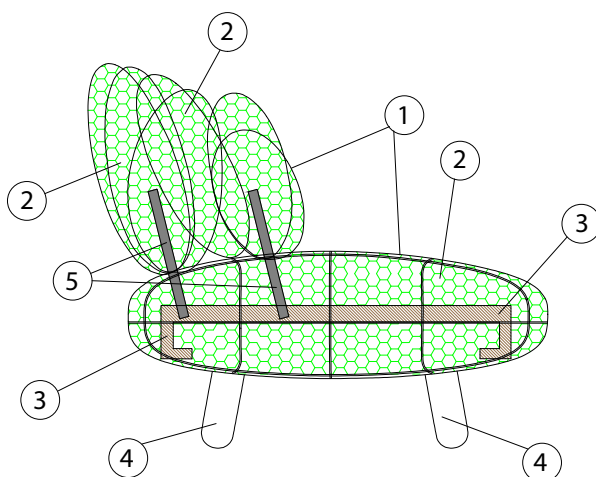

Jelly è un divano polisensoriale, nostalgico e avveniristico, che ricorda vagamente una caramella e trasmette quindi belle sensazioni, una gioia leggera e impalpabile.

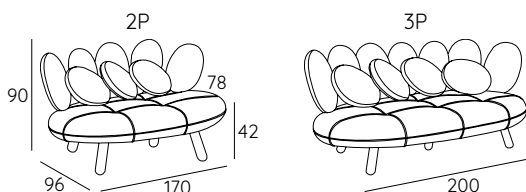

Le gambe cilindriche lo sollevano da terra slanciandone la figura ed alleggerendone l'estetica delle sue forme tondeggianti.

Sono infinite le combinazioni di rivestimenti e colori con le quali si può personalizzare il divano, che può essere facilmente collocato in un ambiente contract o residenziale, interpretandolo in base al contesto in cui si va ad inserire.”
