

TUBE

design **Simone Micheli**

Un tubo che si manifesta come porzione di comfort, come flusso dinamico di design: connette ad alta velocità la voglia di progresso all'esigenza di comodità, inviando input di essenzialità nella rete dell'eleganza.

Tube is a comfortable item that dynamically let's design flow. Tube is a high-speed connection between the need for development and the wish for comfort, but it also receives inputs of minimalistic style from the network of elegance.

MATERIALI / MATERIALS:

- 1 - fibra di dacron® 100 gr;
- 2 - poliuretano espanso indeformabile di diverse densità;
