Remix 3

Remix 3 is an elegant upholstery textile distinguished by exceptional depth of colour, designed by Giulio Ridolfo.

Remix 3 looks unicoloured from a distance but reveals subtle details and colour contrasts when viewed close-up. The textile features a tight, minimalistic weave, and derives its lively colour play from a combination of two different mélange yarns, which each combine up to three hues.

Divina 3

Divina is a full-cloth product, which means that it is manufactured by weaving the yarn in a coarse linen hose casing, after which, it is subjected to mechanical processing using very high temperatures, at the same time as it is being coloured. This creates a situation where the surface becomes smooth, directionless and uniform in a manner very similar to the properties of felt.

Hallingdal 65

Kvadrat's first textile 'Hallingdal' has become the archetype of woollen textiles. The very durable upholstery fabric was originally designed in 1965 by Nanna Ditzel, and is now available in a version with an updated colour scale: Hallingdal 65.

Hallingdal 65 is made of wool and viscose, which complement each other well: the wool provides excellent durability and flexibility, whilst the viscose adds brilliance and depth to the colour. Both materials are dyed before they are spun, which highlights the rich texture of the fabric.

Fiord 2

The construction of Fiord combines a mélange yarn with a unicoloured yarn that creates pearl-like dots that play across the textile's surface. This sophisticated expression reflects a key source of inspiration behind the design: moonlight glittering like pearls on the rippling waters of a Norwegian fjord.

Zero

The influence of Parisian couture clothing can be seen in this elegant and irregular bouclé upholstery textile. The pearl effect yarn is used in both warp and weft giving a luxurious handle and a sophisticated appearance. The sixteen colourways range from tonal through to contrasting 'salt and pepper' combinations.

Vidar 4

Originally designed by Fanny Aronsen, Vidar has been re-coloured by Raf Simons, with shades ranging from moss green, dark aubergine, ruby red and midnight blue through to brick and earth tones, and easy neutrals.

Tightly woven, without the irregularities of the other bouclé fabrics within this collection, Vidar has an inviting texture, which variously recalls blackberries, orange peel or the comforting close-knit texture of a favourite sweater.

Elle

A curled bouclé fabric, Elle drapes and curves around furniture like an elegant designer coat. The spun bouclé yarn created by blending wool, viscose and acrylic gives the surface a soft tactility. During the subsequent dyeing the yarns take the colour differently, creating captivating shifts within the same tones.
