

ARBOUR

PRODUCT FACT SHEET

ARBOUR

DESIGN BY ANDREAS ENGESVIK & DANIEL RYBAKKEN, 2020

Embodying the concept that design should follow construction, Andreas Engesvik and Daniel Rybakken's Arbour is assembled from separate components that have been independently produced for optimal comfort, quality, and efficiency. Developed to offer a compact and durable sofa with a sustainable profile, the Arbour Sofa features the Nordic Swan Ecolabel, with FSC-certified wood and water-based lacquered frame, and EU-Ecolabelled upholsteries for the Eco version. The seat and cushions are made in carefully balanced proportions, with identical side cushions creating a sense of harmony and offering the opportunity for multiple comfortable sitting or lying positions, while the frame creates a strong yet elegant profile with an architectural quality. With its logical construction and uncluttered design language, Arbour fuses its distinctly Scandinavian aesthetics with high comfort and great durability. The Arbour family comprises a two- and three-seater sofa, and the more compact Arbour Club Sofa and Armchair.

HIGHLIGHTS

- The Arbour family is available as a two- and three-seater sofa and a Club Sofa and Armchair.
- Arbour is a compact and durable sofa with a sustainable profile.
- The Arbour Eco features the Nordic Swan Ecolabel, with FSC-certified wood, water-based lacquered frame and EU-Ecolabelled upholsteries.
- It is built to last, using separate components that can easily be replaced.
- The cushions are made with recycled filling and removeable covers.
- The cushions are secured to the seat with a Loxx button.
- Available in a variety of textiles and frame colours and finishes.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.
