## NEW MODERN TABLE SYSTEM - 2020

---

The NEW MODERN table system enhances the classic TIPTOE range and its table legs by offering larger formats (up to 220cm), new uses (the round table) and by allowing the use of recycled plastic tops (whose thinner thickness and relative flexibility are not compatible with the 75cm TIPTOE table leg).

NEW MODERN dining tables in eco-certified oak NEW MODERN dining tables are available in 3 sizes to accommodate all your guests thanks to their generous dimensions. The oak of our table tops comes from sustainably managed European forests and is certified with the PEFC or FSC label. The tabletop has a solid fir core veneered with natural oak and protected by a water-based varnish.

NEW MODERN dining tables in recycled plastic NEW MODERN dining tables are available in 3 sizes to accommodate all your guests thanks to their generous dimensions. The NEW MODERN dining table top is made of recycled plastic, made from the waste of hundreds of yoghurt pots, making it a unique material. Each table top has a different colour and shine and gives this collection its charm.

## CERTIFICATS

---

The wood for this product comes from sustainably managed forests and controlled sources.

[Pefc-france.org](http://Pefc-france.org)

Recycled polystyrene from yoghurt pots.
