Concentrandosi sui motivi delicati percepiti come trame, Sling consente di ottenere un’estetica da interni di alto livello in un ambiente esterno. A differenza del rigido e scomodo tradizionale tessuto in PVC, lo Sling combina la forza del PVC con la morbidezza del filato acrilico per un maggiore comfort. L’unione delle palette di colore naturale con filati innovativi permettono di ottenere una trama e una ricchezza maggiore.

Focusing on delicate patterns that are seen as textures, Sling allows to achieve a superb aesthetic in an outdoor setting. Unlike the traditional PVC fabric that is stiff and uncomfortable, Sling combines the strenght of the PVC with thr softness of the acrylic yarn for greater comfort. The union of the neutral colour palettes with innovative yarns, guarantee a weave and a major richness.

Fortezza

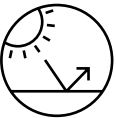

Tessuto con alta resistenza agli agenti atmosferici e alla luce solare, garantisce una totale resistenza al fuoco, lavabile in lavatrice senza doverlo stirare. Fortezza si adatta perfettamente sia agli ambienti interni ed esterni, è antistatico e altamente resistente alle muffe e batteri. Le sue caratteristiche termoregolanti rendono il tessuto caldo in presenza di basse temperature e freddo quando fa caldo. Sicurezza per tutta la famiglia in quanto è completamente antiallergico, atossico, antibatterico e riciclabile.

Fabric with high resistance to weathering and to sunlight. Fortezza is a fabric with innovative and unique technical characteristics; it has been developed by intense research on highly technical yarns , matches a refined style with the respect for nature and the environment: this is realized thanks to a process that requires far less energy than all other synthetic yarns, it is non-allergenic, non-toxic, 100% recyclable and flame-retardant. This fabric is perfectly adapts to both indoor and outdoor environments, it is antistatic and highly resistant to mould and bacteria.

Glam - Vulcano

Dall’aspetto naturale e dalla mano morbida, la particolarità di questo innovativo prodotto è l’elegante tessitura ottenuta intrecciando diversi filati, realizzati appositamente per conferire un effetto soft/melange in combinazione ad una particolare tecnica tintoriale. L’intreccio di filati compatti e resistenti conferisce allo stesso tempo struttura, morbidezza e lucentezza.

Natural looking and soft hand, the peculiarity of this innovative product is the elegant texture obtained by weaving different yarns, specifically realized to give a “soft melange” effect, in combination with a special dyeing technique. The weaving of compact and resistant yarns gives structure and softness, shininess with shiny shades, at the same time. Engineered for outdoor living, each fabric is tested and certified to withstand the most hostile conditions.

Altai

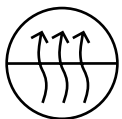

Questo innovativo tessuto per outdoor combina aspetto e coloritura tipici dell’ambito residenziale a performance tecniche assolute. Due distinti filamenti di polipropilene tinto in pasta vengono ritorti in modo da creare le tipiche irregolarità dei filati naturali come il lino, rendendo la superficie del tessuto mélange ed evidenziando una struttura tridimensionale. La sua composizione/composition garantisce altissime prestazioni a tutti i test meccanici oltre grande resistenza alla luce solare rendendolo perfetto sia per ambienti esterni che interni.

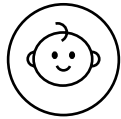

This trendy outdoor textile mixes typical high and residential look and color tones with extemely performing technical specifications. Two different solutions dyed Polypropylene filaments twisted together recreate the classical irregular slubs of natural materials such as linen and they also contribute to underline the subtle overall mélange effect and the pronounced stucture of weave. Fabric content guarantees very high results to all mechanical tests on top of specific light and color fastness resistance, allowing this state of the art product to be used for both luxurious and outdoor use.

Sky Rooftop

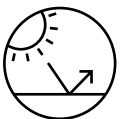

Sky è una collezione di tessuti da outdoor di alto livello, creata per impreziosire lo stile dei più lussuosi spazi residenziali e contract. Attraverso le sue trame morbide e avvolgenti, Sky si adatta perfettamente al design dei mobili imbottiti da esterno, dal divano in terrazza al lettino a bordo piscina, per godere il massimo del comfort alla luce del sole. L'estetica minimal, declinata in 5 raffinate varianti colore, unita all'eccezionale resistenza ai raggi UV, rendono Sky una collezione che dura nel tempo e che ci accompagna nei momenti migliori trascorsi all'aria aperta. Sky è disponibile nella versione Rooftop, che reinterpreta forme classiche attraverso un motivo a greca equilibrato e dinamico, e nelle armature coordinate Solarium e Patio, che abbracciano uno spirito decorativo semplice e indimenticabile.

Sky is a collection of high-end outdoor fabrics created to enhance the style of the most luxurious residential and commercial spaces. Thanks to its soft and enveloping textures, Sky adapts perfectly to the design of outdoor upholstered furniture, from sofas on the terrace to loungers poolside, to deliver maximum comfort in the sunlight. Exceptional resistance to UV rays and minimalist aesthetics, embodied by 5 refined hues, make Sky a collection that lasts over time and the perfect complement to sophisticated outdoor living. Sky is available in the Rooftop version, which reinterprets classic shapes through a balanced and dynamic Greek motif, and in the coordinated Solarium and Patio weaves, which embrace a simple and unforgettable decorative spirit.

Attraverso le sue trame morbide e avvolgenti, Sky si adatta perfettamente al design dei mobili imbottiti da esterno, dal divano in terrazza al lettino a bordo piscina, per godere il massimo del comfort alla luce del sole. L'estetica minimal, declinata in 7 raffinate varianti colore, unita all'eccezionale resistenza ai raggi UV, rendono Sky una collezione che dura nel tempo e che ci accompagna nei momenti migliori trascorsi all'aria aperta. Sky è disponibile nella versione Rooftop, che reinterpreta forme classiche attraverso un motivo a greca equilibrato e dinamico, e nelle armature coordinate Solarium e Patio, che abbracciano uno spirito decorativo semplice e indimenticabile.

Sky is a collection of high-end outdoor fabrics createci to enhance the style of the most luxurious residential and commercial spaces. Thanks to its soft and enveloping textures, Sky adapts perfectly to the design of outdoor upholstered furniture, from sofas on the terrace to loungers poolside, to deliver maximum comfort in the sunlight. Exceptional resistance to UV rays and minimalist aesthetics, embodied by 7 refined hues, make Sky a collection that lasts over time and the perfect complement to sophisticated outdoor living. Sky is available in the Rooftop version, which reinterprets classic shapes through a balanced and dynamic Greek motif, and in the coordinateci Solarium and Patio weaves, which embrace a simple and unforgettable decorative spirit.

Nattè

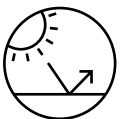

Con uno schema di tessitura che porta consistenza e grana al tessuto, Nattè è un abbinamento sofisticato di un design screziato e di colori eleganti che sono ideali per elementi tappezzati senza tempo.

A weave pattern that brings texture and grain to the fabric, Natte is a sophisticated pairing of a flecked design with subtle colors that are ideal for timeless upholstery pieces.

Modalità trattamento tessuti

Manutenzione	É normale che le poltrone perdano con l’uso un po’ del loro volume, nessun problema, basta ricaricare con l’apposito kit di microsferes fornito da Gart.
Cura e pulizia dei tessuti	Uno dei metodi migliori di manutenzione dei tessuti è spazzolare via lo sporco prima che si radichi nel tessuto e asciugare o pulire le macchie non appena si presentano. Un tempestivo intervento sulle macchie facilita la loro rimozione.
Per rimuovere le macchie:	1 - Preparare una soluzione composta da ¼ di bicchiere di sapone delicato per ogni 4 litri di acqua. 2 - Spruzzare sull’intera area e lasciare assorbire per 15 minuti. 3 - Pulire l’intera superficie trattata con una spugna, un panno pulito o una spazzola a setole molto morbide. 4 - Risciacquare abbondantemente per rimuovere tutti i residui di sapone. 5 - Lasciare asciugare all’aria.

Fabric treatment mode

Maintenance	It’s normal that the seats loses a little bit of its volume over time, no problem, you will only have to recharge it with the use of the special microspheres kit provided by Gart.
Upholstery care and cleaning	One of the best ways to keep fabrics looking good is to brush off dirt before it becomes embedded in the fabrics and wipe up spills or clean soon after a stain occurs. The quicker you clean spills and stains, the easier they can be removed.
To remove stains:	1 - Prepare a solution of 1 cup of bleach and ¼ cup mild soap per gallon of water. 2 - Spray on entire area and allow to soak into the fabric for 15 minutes. 3 - Clean entire surface area with a sponge, clean towel or very soft bristle brush. 4 - Rinse thoroughly to remove all soap residue. 5 - Air dry.
